Art Paris, Paris, France (2021)  
Art Paris, Paris France (2020)  
ZONAMACO, Mexico City, México (2019)

## ABOUT

His artworks are intuitive, spontaneous and without an implicit message, his creation speaks for itself. In recent Ballesteros has experimented in the field of abstraction, playing with geometric complexity through the uniformity of pigments and the reduction of profiles. As a result of these investigations, his most recent work reflects the convergence of rounded shapes on a monochromatic background where the viewer is immersed in an energetic and dynamic art.
