### ABOUT

James Rielly is a British artist born in 1956 currently based in France and Professor at the Beaux-arts de Paris.

The artist regularly exhibits his works internationally and to great acclaim.

Rielly's works are subtle yet inherently dark. Slightly twisted psychology of the rites of passage is central to what Rielly's works meditate upon regularly. The hesitation between life's transitions depicted as we consider whether adolescences is genuinely innocent in light of how we behave as adults.
